

RHEL 安装iftop

```
1. install libpcap and libncurses
# yum -y install libpcap libpcap-devel ncurses ncurses-devel

2. download and install iftop
# wget http://www.ex-parrot.com/pdw/iftop/download/iftop-0.17.tar.gz
# tar -zxvf iftop-0.17.tar.gz
# cd iftop-0.17
# ./configure
# make
# make install
```
