

service mysqld start failed

关闭selinux

```
vi /etc/selinux/config
```

设置SELINUX=disabled

然后需要重启生效

```
/sbin/init 6
```

```
select user(); : 查看当前用户
```

```
select database(); 查看当前数据库
```

```
show variables like '%slow%';
```

```
set global slow_query_log=off;
```

```
set global slow_query_log=on;
```
