

## 当schema userbehavior创建表时自动 赋给另一个用户select权限

```
#!/bin/bash
set -e
set -x

sql select 'grant select on userbehavior.' || table_name || ' to zengcb;' from dba_tables where owner = 'USERBEHAVIOR'; >
grant.sql

user="system"
pass="manager"
var="$1"
sqlplus -S $user/$pass <<EOF

EOF

sqlplus -S system/manager @my_sql_script.sql

sqlplus -S "/" as sysdba << !

exit;
exit;
!
```
