

## oracle truncate表分区之后全局索引失效问题的解决

参考：[http://blog.csdn.net/e\\_wsq/article/details/39065381](http://blog.csdn.net/e_wsq/article/details/39065381)  
<http://blog.chinaunix.net/uid-28813259-id-3859951.html>

```
alter table table_name truncate partition partition_name;
```

```
alter index index_name rebuild;
```
