

## Oracle 隐含参数及注释信息查看方法

参考：<http://blog.itpub.net/20335819/viewspace-713519/>

```
col name for a32
col value for a24
col description for a70
select a.kspinm name,b.kspstvl value,a.kspdesc description
      from x$kspci a,x$ksppcv b
where a.inst_id = USERENV ('Instance')
      and b.inst_id = USERENV ('Instance')
      and a.indx = b.indx
      and upper(a.kspinm) LIKE upper('%&param%')
order by name
/
```
